SMART PORT CITY: ENHANCING SUPPLY CHAIN SOLUTIONS

11/11/2024 - 15/11/2024

Port of
Antwerp
Bruges
International

WHY

As a port professional, gaining a thorough understanding of the responsibilities and functions of the entire supply chain is crucial, as well as understanding the impact of innovative solutions. The curriculum on 'Smart Port City: Enhancing Supply Chain Solutions' emphasizes the importance of moving towards a resilient, secure, and efficient supply chain.

WHAT

The curriculum on 'Smart Port City: Enhancing Supply Chain Solutions' comprises four modules consisting of lectures by Indian/Belgian private companies and complemented by international best practices. This unique approach ensures that participants gain a holistic overview of innovative solutions that can be implemented in private industries and public port communities.

The four modules covered in the course:

1 Supply Chain Management

- a. Major trends impacting the global supply chains
- b. Flanders as a logistics hub for Europe

2 Port Efficiency & Competitiveness

- a. Value-added logistics
- b. Automation in the port operations
- c. Trade facilitation

FOR WHOM

The 'Smart Port City: Enhancing Supply Chain Solutions' course is designed for port authority executives, private players, young potentials, and officials from governmental organisations passionate about the roadmap to innovative, secure, sustainable, and cost-effective solutions aimed at enhancing smart port city development.

HOW

All modules are composed of theoretical concepts used worldwide and supported by practical insights from the Indian industry.

3 Hinterland Connectivity

- a. Hinterland strategy: infrastructure and multimodal connectivity
- b. Warehouse management
- c. Automation in the supply chain

4 Digitalisation

- a. Port Community System
- b. Maritime Single Window
- c. Port Management System
- d. Cyber resilience
